Larger area injectable fat dissolvers; topical neuromodulators

Rebecca Kazin, M.D., of the Washington Institute of Dermatologic Laser Surgery, in Chevy Chase, Md., and Washington D.C.: Dr. Kazin, who chose injectable fat destruction with Kybella as her top pick for 2015, told *Dermatology Times* she is most excited in the next year about injectables that dissolve fat over larger areas like the abdomen, as well as topical neuromodulators for wrinkles and sweating.
